## Public Invited to Learn about Start of Interstate 15 Base Line Road Interchange Construction – Aug 7

**Rancho Cucamonga, CA** – The San Bernardino Associated Governments (SANBAG), joined by the Cities of Rancho Cucamonga and Fontana, will serve as hosts to a public open house on Thursday, August 7 to share information about the upcoming construction for the Interstate 15 Base Line Road Interchange Project. Doors will open to the Rancho Cucamonga Hall at Central Park in Rancho Cucamonga at 6:00 pm. Project team members will be on-hand until 7:30 pm with a brief overview presentation scheduled for 6:30 pm. Light refreshments will be available.

This much-needed interchange improvement will expand and reconfigure the interchange, as well as the intersection of Base Line Road and East Avenue to alleviate congestion, improve safety, and improve mobility throughout the project corridor. When complete, motorists will see a wider Base Line Road and East Avenue, reconfigured on- and off-ramps, and a more efficient landscaping plan in the interchange area.

To learn more about the project, or to sign up for regular construction updates, visit SANBAG on the web at [www.sanbag.ca.gov/projects](http://www.sanbag.ca.gov/projects) and click on the I-15 Base Line Road Interchange page.
